NEWS RELEASE

Removal of TikTok application from House-managed mobile devices

On February 27, 2023, the House of Commons Administration informed all users of House-managed devices that the mobile application TikTok may no longer be installed, effective **March 3, 2023, at 9:00 p.m. (ET)**.

As such, parliamentary users must remove the application from their House of Commons-provided devices as soon as possible.

The House of Commons's decision to remove access to the application on its corporate assets follows a series of consultations with national security partners and is aligned with similar action taken by other jurisdictions and institutions.
