<b>DISCUSSION QUESTIONS</b>
<b>What did participants say about the current system for electing Members of Parliament (benefits/flaws)? Did participants feel that their votes are fairly translated? (suggested limit: 500 words)</b>

*Deadline: Friday, October 14, 2016*

Flaws: Does not reflect what people want, encourages strategic voting, not all votes count, creates majority governments with plurality votes, not representative of local needs, concentrates effort of parties on swing ridings, supports two party system, poor participation, voter apathy, not representative, undemocratic.

**Which alternatives to the current system were discussed? Did participants identify specific features that are important to them in an electoral system (for example local representation, proportionality, simplicity, legitimacy etc.)? (suggested limit: 500 words)**

Alternative Systems	# of Voters
Alternative vote (AV)	17
Mixed member Proportional (MMP)	48
List Proportional Representation (Closed List PR)	4
Single Transferable Vote (STV)	11
Other: ranking via points, point based proportional representative, hybrid system	3

Specific features: local representation, simplicity, legitimacy, proportionality, democratic process where maximum participation and representation is achieved with online voting made available for disabled people and individuals outside of voting areas, equal representation, candidate-citizen accountability, stability, compromise, integrity of the vote, incentivized voting via a voter tax credit, increased youth participation, increased voter education, creating a voting culture.

**Did participants discuss why they feel many Canadians choose not to engage in the democratic process? Did they suggest ways to encourage participation? (suggested limit: 500 words)**

Some participants believed that voting was too hard for those with disabilities, the current system has taught strategic voting, and some people remain disengaged with Canadian politics. The participants felt that they could not accurately identify reasons why Canadians choose not to engage in the democratic process because they felt represent those that do engage.

On increasing voter participation: mandatory voting, online voting, door to door visits, weekend voting, voting holiday, educating the populous, accountability of the candidates to the citizens, lower voting age, regional representation, social media, non-partisan ads discussing and educating populous on issues, accessibility, incentives for voting, publish list of those who do not vote, engage youth, elections Canada should have more power to create a voting culture, to educate about voting, and encourage voting.

**Did participants feel that it should it be mandatory to cast a ballot? (Can include spoiling a ballot.) (suggested limit: 500 words)**

Mandatory Voting	For: 51 Against: 36
------------------	---------------------

Why recommend? Only as long as none of the above is an option, it will favour voter participation which is important, it is a citizen's obligation, punishment for not voting should be community service

Why not recommend? Electoral privilege should be up to individual, donkey voting, reward those who vote but don't punish those who don't, people may buy votes of complacent voters, true democracy does not need mandatory voting, educated population on importance of voting instead of forcing them to vote

**Did participants discuss online voting? Did they express a desire to maintain current voting practices? (i.e. presenting themselves at a polling station, vote secrecy etc.) (suggested limit: 500 words)**

Online Voting	For: 58 Against: 22
---------------	---------------------

Why Recommend? Accessible to people all over Canada, more engagement due to convenience, ensures decreased voter fraud, ensures voting during poor weather conditions, encourage youth voters, opportunity for citizens who are abroad during election

Why Not Recommend? Security issues (hackers, vote manipulation), not everyone uses the internet

**Were any other major topics raised by the participants? (i.e. referendum, women/minority representation, accessibility, voter turnout etc.) (suggested limit: 500 words)**

Feedback of this event suggested: more social forums for youth, increase frequency of town halls, more literature so people do not have to share, make it a longer event, friendlier attendants/ushers, send information about meeting in advance (most common suggestion), slide presentation, larger space, more tables, supply pens, better outreach to other political parties, facilitate better group discussion, provide specifics and agenda details, provide discussion outline, provide more education about electoral system, MP's should have more facetime with constituents.

**SUMMARY OF KEY RECOMMENDATIONS AND COMMENTS FROM PARTICIPANTS (suggested limit: 1000 words)**
