

## **Subject Matter of Bill C-15, An Act respecting the United Nations Declaration on the Rights of Indigenous Peoples**

As Canada's Minister of Innovation, Standards Council of Canada, Canadian Advisory Council, Canada Expert Representative to the International Standards Organization ISO Technical Committee TC279 Innovation Management 56007 & Measurement 56008

I believe Canada and this Committee needs to consider the current marketplace best policy too initiate & implement new management practice especially when considering implementing UNDRIP

Today Canada is renovating it's Parliament Buildings Centre Block renovations upon ASMIN Metis initiated Innovation Management Development where  
Our Eastern Metis Nation that has never been; conquered, defeated, surrendered, ceded or locked up in to Canada's poverty prison reservations  
We are Canada's team members hidden in plain sight but unrecognized and not one of Canada's welfare indigenous peoples as we participate in Canada's economic engine of prosperity and well being for Canada and Canadians while Canada refuses to recognize our very existance

**This Canada Bill C-15 UNDRIP respectfully directly relates to our Eastern Metis Nation to Nation relationship with Canada**

**Will This Committee accept this request to appear before the Committee to consider how this Bill C15 Dramatically affects our Canadian peoples** as to date Canada fails to acknowledge my peoples

For example I personally have over the past 6 decades dedicatedly volunteered 20 hours a week to work for global social humanitarian development for the worlds peoples well being including Canada and Canadians

Sadly Canada in it's Covid 1 Response only recognizes Professionals (defined by being paid or in business to maximization of profit) and fails to Consider that their are Canadians (even MP's & Senators) who dedicate their time to help others

As a Queens Boy Scout in my youth I actually implemented "On my honour, I promise to do my duty, to god and the queen, to help other people at all times, and do a good turn every day" (I split my week into 40 hrs+ work, 20 hrs volunteering & 10 hrs personal development)

Thank you for your considerations to here from our ASMIN Metis nation on this Bill C15 & UNDRIP
