

To Whom it May Concern,

I am writing this document to outline my disagreement with Bill C-6, the so-called "Conversion Therapy Bill".

This bill is unethical and immoral. It takes God-given rights away from parents. It harms those most in need of help. It inhibits and outright bans free speech in support of its unscientific agenda. The entire bill should be scrapped and thrown to the politically-correct dustbin of history. But seeing as we are now living in times of universal deceit, the truth is hard to come by and so the bill must be amended.

First and foremost, the most destructive area of this bill is its intrusion into the private lives of Canadian parents. This government has become so tyrannical, so corrupt, and so evil that it now seeks to destroy children by circumventing parental influence over them. It is the God-given right of a parent to raise their children as they see fit. And it is the God-instructed duty of moral citizens to help those that are suffering. This corrupt government is seeking to destroy the ties that exist among family by forcing their unscientific, politically-correct nonsense into peoples' homes. Nothing surprises me any more when it comes to Trudeau and his shady, immoral behaviour, but this is too extreme for anyone with a conscience to go along with. Parents have rights beyond this governments tyrannical reach that cannot and will not be broken..

This bill also seeks to harm the children it purports to be seeking to help. Gender dysphoria is a real medical problem and needs to be dealt with through love and truth. Allowing these individuals that are suffering through this psychological trauma to go along with irreversible medical surgeries and medications is unethical and immoral. There would be an outcry if someone were to encourage an individual suffering from Body Integrity Dysphoria, wherein the sufferer seeks to remove a limb, to go ahead and chop off their body parts because they were "born that way". At least there would be right now; I have no faith in how immoral this government will become in order to retain power and impose its will of destruction upon our once great country.

Finally, this bill goes against science and the Hippocratic oath to "do no harm". By going along with delusions and mental trauma, this government is prolonging, and in some cases, irreparably harming children because of political correctness and the failure of personal conviction and morality. This current wave of political correctness will pass; the trauma inflicted upon innocent children, however, will remain to haunt them for the rest of their lives.

Do not give in to the tyranny of political correctness. Pray to the God that exists for strength and courage. But you must raise your voice and do what is right. Fix this bill. Innocent childrens' lives are at stake.

Sincerely,

A servant of Jesus Christ
