

**Bill C-6 violates freedom of religion and puts Christian Churches under persecution.**

I am a Christian and the Canadian Charter of Rights and Freedoms allows me to have freedom in my belief and my faith. My church teaches the Bible and we firmly believe that a person can be transformed by the redemption power of Jesus Christ. It does not only say in 1 Corinthians 6:9-11, I will provide you with living testimonies below. The Bible also teaches us that God made human beings in His likeness. **This is where human dignity comes from.** God created them male and female. There is no other gender and **it is where God's blessings come from.** A person's gender is assigned by God and cannot be reassigned by man. (Genesis 5:1-2) Our Christian faith requires us to obey the Word of God and to preach the life changing gospel to all people including those with homosexual inclination and gender disorder. The Lord is near the brokenhearted and He saves those crushed in spirit. We are called to love them and serve them and let them know that Jesus has the power to change if they are willing. However, Bill C-6 makes "service to change a person's sexual orientation to heterosexual or gender identity to cisgender, or reduce non-heterosexual attraction or sexual behaviour" a criminal offense. The bill if passes will put Christian churches under persecution. It is a sacred duty for you as a Member of Parliament to protect our religious freedom and to do everything in your power to stop Bill C-6.

**Living proof that gays, lesbians and transgender can change. They ask you not to ban the so-called "Conversion Therapy".**

Please watch: <https://www.campaignlifecoalition.com/conversion-therapy>

**This man who struggled with unwanted same-sex attraction begs you not to make his story illegal.** <https://www.youtube.com/watch?v=Ec4mZoW1110>

No one can force anyone to change, but these people are happy to tell others how they were changed. Doing that can be considered advertising, the same way as people recommending a product or a service. Under Bill C-6 they would be liable for up to 5 years in prison.

Would you allow those who want change have a chance to know that help is available?  
Would you allow those who have been through have a chance to let others know?  
Please stop Bill C-6. Let the positive messages spread without a legal consequence.
