Search Results: Search results are presented in the form of individual items: a transcript of each time someone speaks. Each item contains information on who spoke and when; a text preview with the option to click ...More to reveal the full speech; and at the bottom, the discussed topics tagged to the item.

Six icons located in the top righthand corner give the ability to: share to Facebook or Twitter; play video of that item; view the whole meeting on a webpage or pdf; and add to favourites. Underneath the item, there is the option to click on a name and timestamp to view the next item in that publication.
