

AgrilInvest Factsheet

All 2020 transaction year statistics are up to and including June 5, 2020.

Due to a migration of the database and a change in the way the data was collected starting in 2015, we are only able to provide relevant figures for the past 5 years rather than the 10-year history requested by the AGRI Committee.

In Québec the AgrilInvest program is delivered by *La Financière agricole du Québec*. As a result, AAFC does not possess the relevant data for AgrilInvest accounts in that province and numbers provided below do not include accounts in Québec.

a) The total number of AgrilInvest accounts registered, and percentage that are deposited into and withdrawn from annually.

AgrilInvest accounts active (as of June 5, 2020): 99,673

Annual Withdrawals and Deposits as a Percentage of all Active Accounts:

Year	Percentage of Producers Making Withdrawals	Percentage of Producers Making Deposits
2015	40.4%	74.2%
2016	41.5%	77.1%
2017	38.5%	76.3%
2018	38.2%	77.8%
2019	40.0%	69.9%
2020	23.1%	19.8%

b) The total amount of dollars in AgrilInvest accounts at the high point in the year and the low point of the year for the past 10 years and broken down by province.

Canada*:

Year	Minimum AI Balance Date	Minimum AI Balance	Maximum AI Balance Date	Maximum AI Balance
