ASSESSMENT OF REASONABLE EFFORTS

- An assessment of reasonable efforts is not required given that all goals have been met at 80% or above.
 - The organization established 35 short-term goals and achieved 19. This equals 54% of goals met, which does not meet the 80% threshold necessary to demonstrate reasonable efforts.
 - In four instances up to 15 where goals were not met, there were insufficient hiring and promotion opportunities to expect reasonable progress. In 11 instances, there were sufficient hiring and promotion opportunities to expect reasonable progress.
 - The organisation implemented all the required measures. However, no specific or targeted measures have been put in place to encourage the hiring or promotion of members of four designated groups.
 - The reporting period for the current assessment go from October 2014 to August 2017. The original compliance assessment documentation received in 2017 did not comply with the program requirements. The organization was reluctant to set goals in all categories that revealed gaps. The revised submission was obtained after several requests and meetings with the employer. The employer cooperation during the process was very poor.

ASSESSMENT OF GOALS

• A goal has been set for every gap in representation uncovered by the workforce analysis. All short-term and long-term goals were set in percentage format and are, at minimum, equal to LMA.

RECOMMENDATION

| I recommend that | the employer be found |
|------------------|-----------------------|
| ⊠in compliance | ☐ in non-compliance |

Having assessed the data submitted by the employer regarding its workforce and, considering their unique circumstances, I recommend the closing letter include the following:

- University of Waterloo met 19 of the 35 goals set during the previous assessment. Out of 15 goals not met, there were sufficient hiring and promotion opportunities in 11 instances to expect reasonable progress.
- To ensure that University of Waterloo continues to see reasonable progress towards achieving a representative workplace, it is strongly recommended that the company consider conducting an employment systems review to identify any potential barriers to the recruitment and retention of members of the designated groups. Guidance on how to conduct an employment systems review is available on the Labour Program website (Step 2-2 of the training modules under the WEIMS help page).
- The workforce analysis revealed high gaps in the professionals' occupational group in each designated group. We recommend paying close attention to the recruitment and promotion of employees in this occupational group. University of Waterloo could focus on the early stages of the recruitment process to ensure that no barriers are in place preventing employment equity.
- We recommend that this organization implement tailored hiring practices that encourage recruitment in the designated groups to reduce the gaps in representation. The organization might consider forging links with trade programs, career fairs and professional associations in order to identify qualified potential employees that are members of the designated groups. This may help them in reducing or eliminating the gaps.

with the Federal Contractors Program

Cette information est également disponible en français sur demande.

Dear

I am writing to inform you that the subsequent compliance assessment initiated on October 21, 2017 has been completed. As a result of the assessment, University of Waterloo has been found to be in compliance with the requirements of the <u>Federal Contractors Program</u> (FCP) under the <u>Employment Equity Act</u>.

The purpose of this subsequent assessment was to verify whether or not your organization has maintained compliance with the requirements of the FCP and made reasonable progress and/or reasonable efforts to achieve employment equity.

Based on a review of the information submitted by your organization for this subsequent assessment, you will find recommendations below for your consideration to ensure the ongoing success of University of Waterloo's employment equity program.

- University of Waterloo met 19 of the 35 goals set during the previous assessment. Out of 15 goals not met, there were sufficient hiring and promotion opportunities in 11 instances to expect reasonable progress.
- To ensure that University of Waterloo continues to see reasonable progress towards achieving a representative workplace, it is strongly recommended that the company consider conducting an employment systems review to identify any potential barriers to the recruitment and retention of members of the designated groups. Guidance on how to conduct an employment systems review is available on the Labour Program website (Step 2-2 of the training modules under the WEIMS help page).
- The workforce analysis revealed high gaps in the professionals' occupational group in each designated group.
 We recommend paying close attention to the recruitment and promotion of employees in this occupational group.
 University of Waterloo could focus on the early stages of the recruitment process to ensure that no barriers are in place preventing employment equity.
- We recommend that this organization implement tailored hiring practices that encourage recruitment in the designated groups to reduce the gaps in representation. The organization might consider forging links with trade programs, career fairs and professional associations in order to identify qualified potential employees that are members of the designated groups. This may help them in reducing or eliminating the gaps.

Under the terms of the FCP, your organization will be selected for subsequent compliance assessments every three years. The next assessment will be initiated on <u>October 21, 2020</u>. Future compliance assessments will continue to focus on the achievement of reasonable progress in meeting the goals established by your organization.

When your organization is notified of the next assessment, the following information will be required by the due date:

- Workforce data (Forms 1 to 6) at the national level;
- An updated workforce analysis; and
- A completed Achievement Report that includes revised short-term and long-term numerical goals for any gaps in representation.

These documents will allow the Labour Program to assess whether or not reasonable progress has been made since the previous assessment. If over the three year period reasonable progress has not been made, University of Waterloo will be required to demonstrate that it has made reasonable efforts to achieve its goals. We encourage your organization to develop an action plan to ensure that goals will be met.

The FCP does not prescribe measures to be undertaken. Each federal contractor is encouraged to implement employment equity in ways that are meaningful and relevant to their organization. Evidence of reasonable efforts could include:
