

Mr. Joël Lightbound, M.P.
Chair
Standing Committee on Industry and Technology
House of Commons
Ottawa, Ontario K1A 0A6

joel.lightbound@parl.gc.ca

Dear Colleague:

I am writing to you following the Standing Committee on Industry and Technology hearing that was held on November 9, 2023, regarding your study of Bill C-27, the *Digital Charter Implementation Act*, 2022.

During that meeting, the Committee adopted a motion requesting details to the more than 300 meetings conducted by my office and by departmental officials with academics, businesses, and civil society groups regarding Bill C-27. As I noted in my remarks to the Committee on September 26, 2023, my office and Innovation, Science and Economic Development Canada have engaged extensively with stakeholders. Attached are the details of 314 such meetings, led by my office and the Department, concerning Bill C-27 and related privacy and artificial intelligence issues since its tabling.

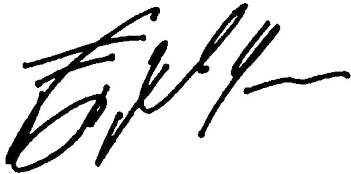

These efforts have helped to inform the important changes to the *Consumer Privacy Protection Act* and the *Artificial Intelligence and Data Act (AIDA)* that I proposed and that were detailed in my previous correspondence to the Committee. I would like to specifically highlight the proactive nature of the outreach that was undertaken with respect to AIDA following its introduction, given the novelty of the legislation. We made a particular effort to reach out to stakeholders with a diversity of perspectives, including civil society groups, academics and other experts, businesses, government, and international partners. The substantial and nuanced amendments highlighted in my correspondence to the Committee reflect this diversity. We have aimed for a comprehensive list, recognizing that there have been many forums and engagements on this file. I trust that the attached list highlights the volume and diversity of our outreach.

...2

I wish to reaffirm my government's commitment to ensuring that our legislative frameworks for privacy and artificial intelligence are suited for the digital age. I am confident that the receipt of this letter and the attached table will enable the Committee to continue this important study without further delay.

Please accept my best wishes.

Sincerely,

A handwritten signature in black ink, appearing to read 'F. Champagne', with a stylized flourish at the end.

The Honourable François-Philippe Champagne, P.C., M.P.

Attachment

Meetings with Stakeholders on Bill C-27, June 2022 to September 2023
